Hire xLoop

How we do it - 100 day challenge

Any team - Any skill - Any time.

You manage the projects, and our world class, full-time team of developers are yours to draw.

[See our team at work](#)

The world has changed Traditional recruitment is last century.

Atloop has adapted the change and designed solutions to solve technical recruitment.

75% faster to fill open roles
58% cost saving vs hiring locally
100% scalable for future

Save Time
Instead of manually reviewing resumes, we can find the best talent for you.

Improve accuracy
Atloop's AI-driven system and our team of experts can help you get the best talent for your business.

Reduce risk
Our AI-driven system can help you identify the best talent for your business and reduce the risk of hiring the wrong person.

Free up resources
Our AI-driven system can help you identify the best talent for your business and free up your resources for other tasks.
