SUMMARY

Senior Product Design Leader with 18+ years of experience defining and executing end-to-end digital experience strategies across enterprise-scale fintech, data intelligence, and complex B2B platforms. Proven track record of owning the complete experience lifecycle—from discovery, problem framing, and research to build collaboration, testing, and optimization—remaining fully accountable for the quality and commercial impact of live digital initiatives.

Expert in designing AI-enabled, data-driven experiences (such as conversational interfaces and intelligent automation) and managing scalable design system frameworks (tokens, components, and governance standards) that boost cross-functional productivity by up to 30%–40%. A highly collaborative leader who partners closely with Product, Tech, and Commercial stakeholders to elevate UX maturity, streamline frictionless digital flows, and advocate for accessibility (WCAG), usability, and customer trust across all digital touchpoints

PROFESSIONAL EXPERIENCE

User Experience Designer

S&P Global | October 2022 - Present | Dubai, UAE

- Experience Strategy & Lifecycle Ownership:** Define and execute the end-to-end digital experience strategy and design vision for next-generation enterprise platforms, including CIQPro Next Gen layouts, modules, and prototypes. Remain fully accountable for the performance, usability, and quality of live production environments.
- AI-Enabled & Data-Driven Design:** Spearhead the UX strategy and interface design for ChatIQ (AI conversational interface), translating complex financial data into intuitive, intelligent automation flows that reduce friction and accelerate user decision-making.
- Cross-Functional Partnering:** Collaborate closely with Product, Engineering, and cross-functional leadership to align commercial objectives with customer-centric digital journeys, driving UX maturity and seamless feature execution across web and mobile touchpoints.
- Design System Governance:** Lead the evolution, scaling, and governance of the KOI 2.0 Design System, standardizing visual components and tokens across multiple surfaces to ensure platform-wide consistency and optimize delivery efficiency by 30%.
- Continuous Optimization:** Monitor and leverage insight-led performance metrics to continuously iterate and improve platform navigation, user engagement, and workflow efficiency.

Principal UI/UX Engineer

Netsol Technologies | June 2021 - March 2022 | Lahore, Pakistan

- Discovery & Problem Framing:** Led the end-to-end experience strategy and core product redesign for Ascent 2.0, simplifying intricate financial workflows into highly intuitive, frictionless digital flows.
- Research & Validation:** Introduced and established structured UX research, journey mapping, and usability testing practices to validate product directions and back experience outcomes with data-driven insights.
- Team Leadership & Adaptability:** Managed and mentored a cross-functional design team, driving execution quality while remaining agile and responsive to shifting business priorities across domain modules.

Senior UI/UX Engineer

S&P Global | July 2011 - June 2021 | Islamabad, Pakistan

- Commercial & Business Alignment:** Partnered directly with Product Managers and commercial stakeholders to translate complex business strategies and financial requirements into scalable, high-fidelity customer journeys for global financial professionals.
- End-to-End Delivery:** Owned the design lifecycle—from initial discovery wireframes and high-fidelity interactive prototyping through build collaboration and testing—for major initiatives, including the comprehensive Investor Relations platform redesign.
- Experience Benchmarking:** Spearheaded usability testing and regular feedback loops to continuously monitor, optimize, and advocate for user satisfaction, web accessibility (WCAG), and customer trust across digital touchpoints.

Graphics Lead - Team Lead

White Wings Consultants | April 2010 - June 2011 | Islamabad, Pakistan

- Journey Mapping & Problem Framing:** Developed comprehensive user personas, detailed journey maps, and wireframes to simplify highly complex financial transaction processes into frictionless, intuitive digital flows.
- Cross-Functional Partnership:** Facilitated collaborative UX workshops to align design, development, and product teams, bridging the gap between technical execution and customer-centric experience strategy.
- End-to-End Delivery:** Took accountability for enhancing platform usability and task efficiency across core financial modules from initial discovery phases through build collaboration.

Graphics Lead - Team Lead

ESOLPK | October 2008 - September 2009 | Islamabad, Pakistan

- Lifecycle Management & Prototyping:** Owned the end-to-end user experience lifecycle across multiple client digital initiatives, translating strategic business objectives into scalable, high-fidelity user flows and interactive prototypes.
- Design Standards & Consistency:** Spearheaded client-facing design solutions with a strong focus on UI consistency, usability best practices, and building baseline design standards across early web touchpoints.
- Stakeholder Alignment:** Presented visual strategies and data-driven prototypes directly to key stakeholders to drive executive decision-making and secure buy-in for the experience vision.

I have worked with *Pi Sigma Group* and *Shifa College of Medicine* – to avoid a full laundry list above, I’ve kept it to last five work experiences.

KEY ACHIEVEMENTS

Awards, Employee Recognition

Recognized as Employee of the Year for three consecutive years (2017–2019). Awarded the Creative Collaborator Award in 2018 and won first place in the Logo and Poster Design Competitions in 2017.

Optimized Design Process

Streamlined the design process by implementing a new design system, reducing delivery times by 30% across departments.

AI & Innovation

Delivered AI-driven UX solutions (ChatIQ) enhancing user productivity and data accessibility

Improved Team Productivity

Enhanced team productivity by 40% through strategic workflow adjustments and improved communication practices.

PROFESSIONAL TRAINING

Problem Solving and Decision Making

Lahore University of Management Sciences | March 2019 | Lahore, Pakistan

INTERESTS

Digital Innovation

Passionate about enhancing digital interfaces to create seamless and impactful user experiences.

User Experience Research

Focused on exploring and leveraging how design positively influences user behavior.

Photography

Deep interest in exploring and capturing aesthetic visuals that tell unique stories.

Travel

Enjoy exploring diverse cultures and gaining new perspectives through travel experiences.
